Program Overview

The purpose of this written Affirmative Action Plan is to specify in a formalized manner the continuing program of Tri-Mor Corporation (hereinafter “the Employer”) for providing equal employment opportunities for minority and female job applicants and to ensure appropriate utilization of minority and female employees pursuant to federal and state law requirements. This Plan also reaffirms the Employer's policy concerning sexual harassment in the workplace as well as its policy prohibiting discrimination on the basis of national origin and religion.

The Employer is fully committed to the concept and practice of equal opportunity in all aspects of employment. The management of the Employer has prepared a written Affirmative Action Plan on a strictly voluntary basis. The existence of the plan should not be construed as an admission, either in whole or in part, that the Employer is a government contractor or subcontractor as that term is defined and used in Executive Order 11246, as amended (E.O. 11246), or its implementing regulations, 41 C.F.R. Part 60- et seq., Ohio Administrative Code § 123-2 et seq.

Further, in the preparation of this Affirmative Action Plan, the terminology used in E.O. 11246 and its implementing regulations has been used as a guide. Therefore, none of the terminology used should be construed as an admission by the Employer, in whole or in part, that in fact either minorities or women have been or are presently being underutilized, or discriminated against in any way by the Employer in violation of federal, state or local fair employment practice laws. Further, nothing contained in this Affirmative Action Plan or its supporting data should be construed as an admission by the Employer, in whole or in part, that it has contravened such federal, state or local employment practice laws.

Confidential/Trade Secret Material

The material set forth in this Affirmative Action Plan is deemed to constitute trade secrets, operations information, confidential statistical data and other confidential commercial and financial data, within the meaning of the Freedom of Information Act, 5 U.S.C. § 552, Title VII of the Civil Rights Act of 1964 (as amended), 42 U.S.C. §§ 2000e et seq., the Trade Secrets Act, 18 U.S.C. § 1905, and 44 U.S.C. § 3508; Chrysler Corp. V. Brown, 4451 U.S. 281, 99 S. Ct. 1705 (1979) and Ohio Revised Code Chapter 149, the disclosure of which is prohibited by law and would subject the individual making the disclosure to criminal and/or civil sanctions. Furthermore, release of any trade secret, confidential statistical or commercial information would be arbitrary and capricious, in violation of the Administrative Procedure Act.

The Employer considers this Affirmative Action Plan to be exempt from disclosure under the Freedom of Information Act and Ohio Revised Code Chapter 149, based upon,

among others, exemptions 2 and 4 of the Act, which protects the information contained in this document from mandatory disclosure to those requesting information under the Act. 5 U.S.C. § 522(b).

The Employer desires the opportunity to exercise rights available to it under the Administration Procedures Act and Ohio law; the Employer does not believe release of this information is "authorized by law" as the term is used in the Trade Secrets Act, 18 U.S.C. Section 1905; for these reasons the Employer believes that anyone releasing such information will be subjecting himself or herself to criminal penalties, including imprisonment and that such person would be releasing information with full realization that such action was in violation of law. If the U.S. Government, State of Ohio, or any agency or subdivision thereof, is considering breaching the conditions under which this Affirmation Action Plan was loaned to such Government, or is considering a request for release of this Plan under the Freedom of Information Act or Ohio Revised Code Chapter 149, request is hereby made that the Government immediately notify the Chief Executive Officer of this Corporation and permit the Employer to respond.

Copies of this plan and all related appendices, documents and supporting data may be made available to the United States Department of Labor or the Ohio Department of Administrative Services upon request and on the condition that the materials be maintained as confidential and not released to any other persons or entities.

Equal Employment Opportunity Policy

The Employer has adopted and enforces a long-standing equal employment opportunity (EEO) policy to ensure that employees are selected, developed, retained and promoted based on the individual's ability and job performance. It has been, and shall continue to be, the policy of the Employer to provide equal employment opportunity to all people in all aspects of the employer/employee relationship without regard to race, color, religious creed, sex, national origin, ancestry, age, pregnancy, handicap, Vietnam era veteran or disabled veteran status.

1. Purpose

The purpose of this policy is to state the Employer's continuing position as an Equal Opportunity Employer and to ensure compliance with applicable state and federal Equal Employment Opportunity regulations and statutes.

2. Scope

This policy applies to all departments of the Employer.

3. Procedures

- a. This Equal Employment Opportunity Policy is to be explained verbally and in writing to all employees and all levels of management. Employees will be informed that the Employer is an Equal Opportunity Employer during new employee orientation sessions and will be given a copy of the policy at that time.
- b. Federal and state government non-discrimination posters, as well as the Employer's EEO Policy Statement, will be permanently displayed in conspicuous locations in all facilities where notices to employees and applicants for employment are customarily placed.
- b. The Employer will provide statistical data to federal and state compliance agencies as required by law, as requested.
- d. All the Employer activities, programs, and employee organizations shall be made available to all employees on a non-discriminatory basis.
- e. All personnel actions including, but not limited to, compensation, transfers, promotions, demotions, terminations, benefits, layoffs, returns from layoff (if any), and leaves shall be administered on a non-discriminatory basis.
- f. Any substantiated incidents of discrimination will result in severe disciplinary action, up to and including termination. It shall further be the responsibility of every employee, supervisor, and member of management to bring to the Employer's attention any evidence of discrimination so that the matter can be promptly investigated and appropriately resolved. Incidents of suspected

discrimination should be reported to the employee's supervisor, the Human Resources Manager, or the Director of Human Resources.

g. Employees will have the opportunity to participate in Employer-sponsored training and developmental programs and job-related classes on a non-discriminatory basis, depending on availability and budget limitations.

h. Questions on all pre-employment forms (e.g. applications) and during pre-employment interviews shall not be designed to reveal race, color, religious creed, national origin, ancestry, disability, marital status, age, sex, or veteran status. The Applicant Self Identification Data Record, which is used solely for the purpose of collecting EEO data, is to be completed by applicants on a voluntary basis. This data is requested solely to comply with government reporting requirements.

4. Monitoring and Enforcement

Any questions regarding our Equal Employment Opportunity policy may be directed to Martin Schlessel, President. Mr. Schlessel, in conjunction with designees within the administrative staff, has been charged with the responsibility of monitoring the program to measure the progress with respect to the stated objectives and to ensure Equal Employment Opportunity.

Every employee should make a personal commitment to ensure compliance with this important Employer policy.

 - 2. These recruiting sources and community action groups will be contacted regarding the Employer's position on "EEO" and the existence of an Affirmative Action Plan.

Utilization Goals

The Employer will exercise good faith efforts to achieve the employment utilization goals set forth by the State of Ohio Department of Administrative Services for the particular job classifications in the various geographic areas in which the Employer works. A copy of the current State utilization goals for minorities are attached. The current state utilization requirement for females is 6.9% pursuant to State Executive Order 84-9, Ohio Admin. Code § 123:2-3-05. The Employer may opt to develop its own utilization goals pursuant to the requirements of Ohio Admin. Code § 123:2-3-04.

The Employer will document its good faith efforts to expand the pool of qualified minority and female candidates, including the following specific actions:

- Maintenance of a file of minority and women job applicants and the action taken regarding each applicant, including the reasons therefore.
- Notification to the contracting agency of any labor union practice that impedes the equal employment of minorities and women, including the union's failure to refer minority and women applicants back to the contractor or subcontractor after the contractor's or subcontractor's referral of the applicant to the union.
- Publication and implementation of an equal employment opportunity policy within the contractor's organization.
- Evaluation of contractor's or subcontractor's employment practices, including job classifications, promotions, recruitment and seniority designations, for discriminatory impact.
- Maintenance of records detailing contractor or subcontractor efforts to recruit minorities and women.
- Participation in community training programs designed for minorities and women.
- Solicitation of subcontracts with minority and women contractors and/or subcontractors, including contracts for supply purchases.

The Employer will provide monthly utilization work hour reports for its total workforce within the State of Ohio to the compliance officer of the applicable contracting agency.

The establishment of a Utilization Goal does not amount to an acknowledgment or admission of unlawful or discriminatory conduct. Rather, the use of the term Utilization Goal is simply a tool used by affirmative action planners, as set forth in the OFCCP regulations and state regulations, to identify areas of focus for the purpose of establishing affirmative action goals.

Notification to Subcontractors and Labor Unions

The Employer will inform any subcontractors with fifty or more employees and a contract with the State of fifty thousand dollars or more or a contract with the State that exceeds an estimated total cost of five hundred thousand dollars and the contract site is within a designated geographic area of the requirement to comply with the rules and regulations set forth in Chapters 123:2-3 to 123:2-9 of the Administrative Code. The Employer will take efforts to avoid contracting with any subcontractor that has been found to be not responsible for state contracts pursuant to rule 123:2-07-01 [123:2-7-01] of the Administrative Code.

The Employer will obtain a certification from an authorized agent of all labor unions with which the Employer exchanges referrals for job applicants, stating that the union's employment policies and practices do not discriminate based upon race, color, religion, sex, or national origin. If the unions fail to provide such certification, the Employer will certify that fact and set forth what efforts were made to secure a statement and the reasons given by the labor union for failing to provide the statement.
