For the Owner

Re: *Addendum No. 1*
Johnson Island Water Main Extension
Village of Marblehead

Date: January 29, 2026

This Addendum forms a part of the contract documents and modifies the original bidding documents dated December 2025 and all previous addenda, if any. Acknowledge receipt of this addendum in the space provided in the bid forms. Failure to do so may subject the bidder to disqualification.

BID OPENING DATE

The date of receiving and opening bids shall be changed from February 3, 2026 to February 10, 2026. The time and place shall remain the same.

BID DOCUMENTS

Add the enclosed Prices to Include, Page BD.9A to BD.13A.

BID FORMS

Replace Bid Form, Pages BF.8 to BF.11, with the enclosed Bid Form, Pages BF.8A to BF.12A.

PLANS

Replace plan sheet 06 of 51 with the enclosed plan sheet 06A of 51.

Add the enclosed plan sheets 1 to 4 of 4 of the Plat of Submerged Land Lease.

Add the enclosed plan sheet 1 of 1 of the Roadway Replacement & Mill & Fill Areas on the roads on the island. The typical details for the Full Depth Replacement and Mill and Fill are on the enclosed plan sheet 6A.

CAUSEWAY AND BRIDGES LOAD RESTRICTIONS

Johnsons Island Road Commission: The Road Commission has historically followed the Ohio Department of Transportation's definitions as per Ohio Revised Code, Section 5577.04. Thus a

Addendum No. 1

Date: January 29, 2026

Page 2

fully loaded 18 wheel tractor-trailer within legal dimensions weighing up to 80,000 pounds will be allowed.

- Any fully loaded transport that exceeds the statutory Maximum Legal Weights and Dimensions thus requiring a special hauling permit on Ohio State Roadways will Not be allowed over our causeway.
- Any oversized, overweight versions beyond that definition will require to be broken down to the legal restrictions before crossing the Causeway or the equipment be brought to the Island via barge.

Questions can be addressed to:

Bob Cailor, Chairman, Johnson's Island Road Commission; 330-352-4595

PREVAILING WAGES

Section 8, Prevailing Wage Rates - **Replace** the Wage Rate Schedule with the following:

1. Heavy and Highway – Decision No. OH20260001, Modification No. 0, dated 01/02/2026.

Bidders shall utilize this revised decision when compiling their Bid.

Prices to Include—Contracts A & B

Any work shown on the plans or required in the specifications but not paid for separately as a bid item shall be included in the cost of other bid items. The amount bid for each Bid Item shall include the following:

- 1.1 All labor, materials, tools, equipment, and transportation necessary for the proper execution of the work in accordance with the Contract Documents.
- 1.2 All assistance required by the Engineer to verify compliance with the Contract Documents, including measuring for final pay quantities.
- 1.3 Project coordination and scheduling.
- 1.4 Detailed breakdown of lump sum bid items as requested by the Engineer.
- 1.5 All provisions necessary to protect workers, the general public, and property along the work in accordance with the Contract Documents.
- 1.6 Record drawings of the installed location of all underground electrical conduit, sewers, tees, wyes, laterals, etc.
- 1.7 Materials testing.
- 1.8 All erosion control measures in accordance with the Contract Documents.
- 1.9 Restoration of the site including rough and fine grading.
- 1.10 Reimbursement to Owner for costs of re-inspection or re-testing of any work not installed in compliance with the Contract Documents.

Prices to Include—Contract A

Preconstruction Video Documentation: The lump sum price shall include all costs associated with hiring a professional videotaping firm to document in detail the existing conditions of the entire work area and potential disturbed areas and submitting a high quality DVD with audio commentary and video log.

Bonds and Insurances, As Per Plan: This item shall include the cost of the Bond and all Insurance Policies required including "Owner/Contractor Protective Policy," "All Risk Builder's Risk Insurance," and/or "Installation Floater Insurance", **and/or any endorsements to fully comply with all contract requirements.**

12" PVC Water Main: The unit price shall include the supply and delivery of all necessary PVC pipes and fittings, excavation and backfill of the pipeline trench, any necessary rock excavation, installation of the pipe and any required fittings, tracer wires, and all testing. This item includes all rock excavation necessary for the installation of the pipe.

12" HDPE Water Main – Underwater Installation (Bay Crossing): The unit price shall include the supply and delivery of all required HDPE pipes, fittings, and materials. It also covers the excavation and preparation of the trench or subaqueous pathway, installation of the pipe across the water body, any necessary rock excavation, fusion welding of pipe joints, and testing. Additionally, environmental protection measures and site-specific safety requirements may be incorporated to ensure compliance with regulatory standards. Price does not include the laying of articulated concrete block mattresses.

12" Gate Valve: The unit price shall include the supply and delivery of the valve, all required fittings, and accessories. It also covers excavation and backfill for valve placement, rock excavation, installation of the valve, valve box and riser in the water main, proper connection to the pipeline and testing for operational functionality.

6" Hydrant Assembly: The unit price shall include the supply, delivery and installation of all components meeting Ottawa County, Ohio standards, including the hydrant branch tee, anchor couplings, fire hydrant, 6" gate valve and valve box & riser, necessary fittings, thrust blocking, hardware and tracer wires. The cost also covers all labor, equipment, and materials for proper installation, including excavation, backfill, rock excavation, and site restoration to original condition. Installation must comply with manufacturer's instructions and project specifications, ensuring correct alignment, connection to adjacent piping, and testing for watertight integrity and operational performance.

Anode Bags for Waterline Fittings: The unit price shall include the supply and delivery of anode bags meeting Ottawa County, Ohio standards, all necessary materials for electrical connection to fittings, and required labor for installation. This item covers proper placement of anode bags adjacent to waterline fittings such as valves, hydrant assemblies, and couplings to ensure effective cathodic protection. Installation shall be completed in accordance with manufacturer's instructions and Ottawa County specifications, with care taken to avoid damage to the anode bag or waterline fitting. Site restoration and any required excavation or backfill associated with installing the anode bags are included in the price.

Anode Bags for Hydrant Assemblies: The unit price shall include the supply and delivery of anode bags meeting Ottawa County, Ohio standards, all necessary materials for electrical connection to fittings, and required labor for installation. This item covers proper placement of anode bags adjacent to waterline fittings such as valves, hydrant assemblies, and couplings to ensure effective cathodic protection. Installation shall be completed in accordance with manufacturer's instructions and Ottawa County specifications, with care taken to avoid damage to the anode bag or waterline fitting. Site restoration and any required excavation or backfill associated with installing the anode bags are included in the price.

Articulated Concrete Block Mattress (Marine Crossing): The unit price shall include the supply and delivery of all concrete mattress materials, placement and securing of the mattress over the HDPE pipe, and any necessary anchoring systems. This item also covers labor, equipment, and site restoration following installation. Environmental protection measures and compliance with relevant safety standards must be incorporated throughout the process to ensure proper coverage and stability of the pipeline crossing.

Seeding and Mulching: The unit price shall include furnishing and placement of topsoil, testing of topsoil, finish grading, seed, fertilizers, lime, mulch, water, maintenance, mowing, and all else necessary to establish a grass turf over all disturbed areas to be grassed. Restoration efforts must ensure the area is stabilized to prevent erosion, and all disturbed surfaces are returned to a condition that meets project specifications and local environmental standards.

Prices to Include—Contract B

Preconstruction Video Documentation: The lump sum price shall include all costs associated with hiring a professional videotaping firm to document in detail the existing conditions of the entire work area and potential disturbed areas and submitting a high quality DVD with audio commentary and video log.

Bonds and Insurances, As Per Plan: This item shall include the cost of the Bond and all Insurance Policies required including "Owner/Contractor Protective Policy," "All Risk Builder's Risk Insurance," and/or "Installation Floater Insurance", **and/or any endorsements to fully comply with all contract requirements.**

Asphalt Pavement Replacement, As Per Plan - Full Depth Reconstruction: The unit price shall include the supply and delivery of all materials as specified in the project documents and in accordance with Johnsons Island Road Commission standards. This includes complete removal and disposal of existing pavement and base courses, thorough site preparation including subgrade compaction, installation of new stone base and asphalt courses to the specified thickness and grade, and compaction to achieve required density, prime coat, and trackless tack coat. All labor, equipment, and measures necessary for a durable and long-lasting pavement surface must be incorporated. The price also covers any required grade control to ensure proper water management.

Pavement Milled and Filled, 3.0” – Partial Depth Pavement Repair: The price shall include the supply and delivery of all materials as specified in the project documents and in accordance with Johnsons Island Road Commission standards. The item covers milling (pavement planning) and removal of the top 3 inches of existing pavement, disposal of removed materials, thorough site preparation, installation of new asphalt courses to the specified thickness and grade, and trackless tack coat. All labor, equipment, and measures necessary for a durable and long-lasting pavement surface must be incorporated. The price also covers any required grade control to ensure proper water management.

Asphalt Drive Replacement: The unit price shall include the supply and delivery of all necessary asphalt materials, removal and disposal of existing pavement where required, site preparation, and proper installation of new asphalt to match the original thickness and grade. The cost also covers compaction, finishing, and restoration of the disturbed area to its original condition, in accordance with project specifications and local standards. All labor, equipment, and measures to ensure a durable and long-lasting pavement surface are included in the price, along with any required erosion control and site protection during construction.

Concrete Drive Replacement: The unit price shall include the supply and delivery of all required concrete materials, removal and disposal of the existing pavement, if necessary, site preparation, and installation of new concrete matching the original thickness, grade, and finish. The cost also encompasses all labor and equipment for proper placement, and curing to ensure a durable and long-lasting drive surface.

Gravel Drive Replacement: The unit price shall include the supply and delivery of all necessary gravel materials, removal and disposal of any existing pavement or unsuitable subgrade, site preparation, and proper installation of new gravel to match the original thickness

and grade. The cost also covers compaction, finishing, and restoration of the disturbed area to its original condition, in accordance with project specifications and local standards. All labor, equipment, and measures to ensure a stable and durable drive surface are included in the price.

Compacted Aggregate, As Per Plan: The Method of Measurement and Basis of Payment shall be in accordance with ODOT Item 617 except that the material to be utilized shall be ODOT 304 instead of ODOT 617.

8" and 12" PVC Water Main: The unit price shall include the supply and delivery of all necessary PVC pipes and fittings, excavation and backfill of the pipeline trench, any necessary rock excavation, installation of the pipe and any required fittings, tracer wires, and all testing. This item includes all rock excavation necessary for the installation of the pipe.

Corp Stop and Saddle and Curb Stop and Valve Box: The unit price shall include the supply and delivery of corp and curb stops meeting Ottawa County, Ohio standards, all required fittings and hardware, saddle, valve box and riser, and all labor and equipment necessary for installation including tapping the main. This item covers excavation, rock excavation, and backfill as needed, proper placement and connection to service lines, and restoration of the site to its original condition. Installation shall be performed according to manufacturer's instructions and project specifications, with testing to ensure watertight integrity and operational functionality.

1" Copper Service Branch: The unit price shall include the supply and delivery of all required piping, fittings, and connection hardware that meet Ottawa County, Ohio standards. The cost also covers all labor and equipment for trench excavation, rock excavation, pipe installation, backfill, and restoration of the disturbed area to its original condition. Installation must follow manufacturer's instructions and project specifications, ensuring proper placement, connection to the main and corp & curb stop, and testing for watertight integrity and operational performance.

8" Gate Valve: The unit price shall include the supply and delivery of the valve, valve box and riser, all required fittings, and accessories. It also covers excavation and backfill for valve placement, rock excavation, installation of the valve in the water main, proper connection to the pipeline and testing for operational functionality.

6" Hydrant Assembly: The unit price shall include the supply, delivery and installation of all components meeting Ottawa County, Ohio standards, including the hydrant branch tee, anchor couplings, fire hydrant, 6" gate valve and valve box & riser, necessary fittings, thrust blocking, hardware and tracer wires. The cost also covers all labor, equipment, and materials for proper installation, including excavation, backfill, rock excavation, and site restoration to original condition. Installation must comply with manufacturer's instructions and project specifications, ensuring correct alignment, connection to adjacent piping, and testing for watertight integrity and operational performance.

Anode Bags for Waterline Fittings: The unit price shall include the supply and delivery of anode bags meeting Ottawa County, Ohio standards, all necessary materials for electrical connection to fittings, and required labor for installation. This item covers proper placement of anode bags adjacent to waterline fittings such as valves, hydrant assemblies, and couplings to ensure effective cathodic protection. Installation shall be completed in accordance with manufacturer's instructions and Ottawa County specifications, with care taken to avoid damage

to the anode bag or waterline fitting. Site restoration and any required excavation or backfill associated with installing the anode bags are included in the price.

Anode Bags for Hydrant Assemblies: The unit price shall include the supply and delivery of anode bags meeting Ottawa County, Ohio standards, all necessary materials for electrical connection to fittings, and required labor for installation. This item covers proper placement of anode bags adjacent to waterline fittings such as valves, hydrant assemblies, and couplings to ensure effective cathodic protection. Installation shall be completed in accordance with manufacturer's instructions and Ottawa County specifications, with care taken to avoid damage to the anode bag or waterline fitting. Site restoration and any required excavation or backfill associated with installing the anode bags are included in the price.

Seeding and Mulching: The unit price shall include furnishing and placement of topsoil, testing of topsoil, finish grading, seed, fertilizers, lime, mulch, water, maintenance, mowing, and all else necessary to establish a grass turf over all disturbed areas to be grassed. Restoration efforts must ensure the area is stabilized to prevent erosion, and all disturbed surfaces are returned to a condition that meets project specifications and local environmental standards.

SHPO Archaeological Surveying Allowance: An allowance has been included in the bid proposal to be utilized as directed by the Engineer for direct costs charged for Professional Services including all costs associated with archaeological surveying, as required by the SHPO Risk Management Plan. This includes coordination with qualified professionals, conducting necessary field investigations prior to ground disturbance, and providing documentation or mitigation measures if artifacts or features are encountered. All work must comply with applicable laws and project specifications. Payment shall be made for only work which has the prior approval of the engineer. Invoices for all for all work completed by the Professional Service Company shall be submitted as evidence of the work completed on the project. The Contractor shall be allowed a 5% mark-up on the invoice amount for overhead and profit. Any portion of the allowance not utilized shall be credited to the Owner.

NOTES:

1. THIS PLAN HAS BEEN PREPARED WITHOUT THE BENEFIT OF A TITLE REPORT AND MAY BE SUBJECT TO EASEMENTS AND OTHER RESTRICTIONS, EITHER RECORDED OR UNRECORDED. THE SURVEYOR HAS MADE NO INVESTIGATION OR INDEPENDENT SEARCH FOR EASEMENTS, RECORD ENCUMBRANCES, RESTRICTIVE COVENANTS OR ANY OTHER FACTS THAT AN ACCURATE AND CURRENT TITLE SEARCH MAY DISCLOSE.
2. THESE PLANS MAY HAVE BEEN ALTERED IN SIZE BY REPRODUCTION. THIS MUST BE CONSIDERED WHEN OBTAINING SCALED DATA.
3. PROJECT HORIZONTAL DATUM - PROJECT CONTROL. FOR THIS PROJECT HAVE BEEN ESTABLISHED BY GPS/RTK OBSERVATIONS UTILIZING THE OHIO COORDINATE SYSTEM OF 1983 (ZONE 3401-OHIO NORTH).
4. THE SURVEY AND STREET ALIGNMENTS SHOWN HEREON WERE OBSERVED IN THE FIELD FOR CONSTRUCTION PURPOSES ONLY AND MAY NOT BE SUITABLE FOR PROPERTY LINE SURVEYS OR OTHER PURPOSES. THE PROPERTY LINES SHOWN HEREON OUR SUBJECT TO AN ACCURATE BOUNDARY SURVEY AND ARE BASED ON FOUND MONUMENTS LOCATED IN THE FIELD BEST FIT TO THE RECORDS.
5. AN ALTA/NSPS LAND TITLE SURVEY WAS NOT PERFORMED.
6. EASEMENTS, RECORD RESTRICTIONS AND SETBACKS WERE NOT ADDRESSED DURING THIS SURVEY.
7. ALL DIMENSIONS GIVEN ARE EXPRESSED IN US SURVEY FEET.
8. IRON PINS SET ARE 5/8" IRON PINS SET WITH A RED CAP INSCRIBED WITH "CT REF"
9. BASIS OF BEARINGS ARE BASED UPON GPS/RTK OBSERVATIONS UTILIZING THE OHIO DEPARTMENT OF TRANSPORTATION'S VRS NETWORK OF CONTINUOUSLY OPERATING REFERENCE STATIONS. HORIZONTAL DATUM IS NORTH AMERICAN DATUM 83 (2018 GEOID)

- PROJECT HORIZONTAL DATUM - PROJECT CONTROL FOR THIS PROJECT HAVE BEEN ESTABLISHED BY GPS/RTK OBSERVATIONS UTILIZING THE OHIO COORDINATE SYSTEM OF 1983 (ZONE 3401-OHIO NORTH).
- THE SURVEY AND STREET ALIGNMENTS SHOWN HEREON WERE OBSERVED IN THE FIELD FOR CONSTRUCTION PURPOSES ONLY AND MAY NOT BE SUITABLE FOR PROPERTY LINE SURVEYS OR OTHER PURPOSES. THE PROPERTY LINES SHOWN HEREON OUR SUBJECT TO AN ACCURATE BOUNDARY SURVEY AND ARE BASED ON FOUND MONUMENTS LOCATED IN THE FIELD BEST FIT TO THE RECORDS.
- AN ALTA/NSPS LAND TITLE SURVEY WAS NOT PERFORMED.
- EASEMENTS, RECORD RESTRICTIONS AND SETBACKS WERE NOT ADDRESSED DURING THIS SURVEY.
- ALL DIMENSIONS GIVEN ARE EXPRESSED IN US SURVEY FEET.
- IRON PINS SET ARE 5/8" IRON PINS SET WITH A RED CAP INSCRIBED WITH "CT REF"
- BASIS OF BEARINGS ARE BASED UPON GPS/RTK OBSERVATIONS UTILIZING THE OHIO DEPARTMENT OF TRANSPORTATION'S VRS NETWORK OF CONTINUOUSLY OPERATING REFERENCE STATIONS. HORIZONTAL DATUM IS NORTH AMERICAN DATUM 83 (2018 GEOID)

WELDERS - Receive rate prescribed for craft performing operation to which welding is incidental.

=====
Note: Executive Order (EO) 13706, Establishing Paid Sick Leave for Federal Contractors applies to all contracts subject to the Davis-Bacon Act for which the contract is awarded (and any solicitation was issued) on or after January 1, 2017. If this contract is covered by the EO, the contractor must provide employees with 1 hour of paid sick leave for every 30 hours they work, up to 56 hours of paid sick leave each year. Employees must be permitted to use paid sick leave for their own illness, injury or other health-related needs, including preventive care; to assist a family member (or person who is like family to the employee) who is ill, injured, or has other health-related needs, including preventive care; or for reasons resulting from, or to assist a family member (or person who is like family to the employee) who is a victim of, domestic violence, sexual assault, or stalking. Additional information on contractor requirements and worker protections under the EO is available at <https://www.dol.gov/agencies/whd/government-contracts>.

Note: Executive Order 13658 generally applies to contracts subject to the Davis-Bacon Act that were awarded on or between January 1, 2015 and January 29, 2022, and that have not been renewed or extended on or after January 30, 2022. Executive Order 13658 does not apply to contracts subject only to the Davis-Bacon Related Acts regardless of when they were awarded. If a contract is subject to Executive Order 13658, the contractor must pay all covered workers at least \$13.30 per hour (or the applicable wage rate listed on this wage determination, if it is higher) for all hours spent performing on the contract in 2025. The applicable Executive Order

minimum wage rate will be adjusted annually. Additional information on contractor requirements and worker protections under Executive Order 13658 is available at www.dol.gov/whd/govcontracts.

Unlisted classifications needed for work not included within the scope of the classifications listed may be added after award only as provided in the labor standards contract clauses (29CFR 5.5 (a) (1) (iii)).

The body of each wage determination lists the classifications and wage rates that have been found to be prevailing for the type(s) of construction and geographic area covered by the wage determination. The classifications are listed in alphabetical order under rate identifiers indicating whether the particular rate is a union rate (current union negotiated rate), a survey rate, a weighted union average rate, a state adopted rate, or a supplemental classification rate.

Union Rate Identifiers

A four-letter identifier beginning with characters other than ""SU"", ""UAVG"", ?SA?, or ?SC? denotes that a union rate was prevailing for that classification in the survey. Example: PLUM0198-005 07/01/2024. PLUM is an identifier of the union whose collectively bargained rate prevailed in the survey for this classification, which in this example would be Plumbers. 0198 indicates the local union number or district council number where applicable, i.e., Plumbers Local 0198. The next number, 005 in the example, is an internal number used in processing the wage determination. The date, 07/01/2024 in the example, is the effective date of the most current negotiated rate.

Union prevailing wage rates are updated to reflect all changes over time that are reported to WHD in the rates in the collective bargaining agreement (CBA) governing the classification.

Union Average Rate Identifiers

The UAVG identifier indicates that no single rate prevailed for those classifications, but that 100% of the data reported for the classifications reflected union rates. EXAMPLE: UAVG-OH-0010 01/01/2024. UAVG indicates that the rate is a weighted union average rate. OH indicates the State of Ohio. The next number, 0010 in the example, is an internal number used in producing the wage determination. The date, 01/01/2024 in the example, indicates the date the wage determination was updated to reflect the most current union average rate.

A UAVG rate will be updated once a year, usually in January, to reflect a weighted average of the current rates in the collective bargaining agreements on which the rate is based.

Survey Rate Identifiers

The ""SU"" identifier indicates that either a single non-union rate prevailed (as defined in 29 CFR 1.2) for this classification in the survey or that the rate was derived by computing a weighted average rate based on all the rates reported in the survey for that classification. As a weighted

average rate includes all rates reported in the survey, it may include both union and non-union rates. Example: SUFL2022-007 6/27/2024. SU indicates the rate is a single non-union prevailing rate or a weighted average of survey data for that classification. FL indicates the State of Florida. 2022 is the year of the survey on which these classifications and rates are based. The next number, 007 in the example, is an internal number used in producing the wage determination. The date, 6/27/2024 in the example, indicates the survey completion date for the classifications and rates under that identifier.

?SU? wage rates typically remain in effect until a new survey is conducted. However, the Wage and Hour Division (WHD) has the discretion to update such rates under 29 CFR 1.6(c)(1).

State Adopted Rate Identifiers

The ""SA"" identifier indicates that the classifications and prevailing wage rates set by a state (or local) government were adopted under 29 C.F.R 1.3(g)-(h). Example: SAME2023-007 01/03/2024. SA reflects that the rates are state adopted. ME refers to the State of Maine. 2023 is the year during which the state completed the survey on which the listed classifications and rates are based. The next number, 007 in the example, is an internal number used in producing the wage determination. The date, 01/03/2024 in the example, reflects the date on which the classifications and rates under the ?SA? identifier took effect under state law in the state from which the rates were adopted.

WAGE DETERMINATION APPEALS PROCESS

1) Has there been an initial decision in the matter? This can be:

- a) a survey underlying a wage determination
- b) an existing published wage determination
- c) an initial WHD letter setting forth a position on a wage determination matter
- d) an initial conformance (additional classification and rate) determination

On survey related matters, initial contact, including requests for summaries of surveys, should be directed to the WHD Branch of Wage Surveys. Requests can be submitted via email to davisbaconinfo@dol.gov or by mail to:

Branch of Wage Surveys
Wage and Hour Division
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

Regarding any other wage determination matter such as conformance decisions, requests for initial decisions should be directed to the WHD Branch of Construction Wage Determinations. Requests can be submitted via email to BCWD-Office@dol.gov or by mail to:

Branch of Construction Wage Determinations
Wage and Hour Division
U.S. Department of Labor
200 Constitution Avenue, N.W.

Washington, DC 20210

2) If an initial decision has been issued, then any interested party (those affected by the action) that disagrees with the decision can request review and reconsideration from the Wage and Hour Administrator (See 29 CFR Part 1.8 and 29 CFR Part 7). Requests for review and reconsideration can be submitted via email to dba.reconsideration@dol.gov or by mail to:

Wage and Hour Administrator
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

The request should be accompanied by a full statement of the interested party's position and any information (wage payment data, project description, area practice material, etc.) that the requestor considers relevant to the issue.

3) If the decision of the Administrator is not favorable, an interested party may appeal directly to the Administrative Review Board (formerly the Wage Appeals Board). Write to:

Administrative Review Board
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210.
